## 89<sup>th</sup> INTERNATIONAL F.I.C.C. RALLY from 28 SEPTEMBER to 6 OCTOBER in Ten-ei Village (Fukushima Prefecture) /Japan

### Traditional Performing Arts

Japan boasts numerous art forms – such as theatre, music and dance – that have been handed down for generations. Some of these were introduced from China and other countries and have evolved in their own unique way in Japan. Performing arts such as Kabuki, Noh and Bunraku have all been designated by UNESCO as forms of intangible cultural heritage.

**KABUKI** is said to have originated from a dance called kabuki odori created by a woman named Izumono Okuni in the 16<sup>th</sup> century. Today Kabuki is performed by an all-male cast.

**BUNRAKU** is a traditional puppet theatre consisting of puppeteers, musicians and puppets. Started in the 15<sup>th</sup> century, its present form was fully established by the 18<sup>th</sup> century.

**KADO** (the art of flower arrangement) is also known as ikebana and is the art of cutting seasonal flowers and plants, putting them in flower bases, and expressing and appreciating the precious value of their life and beauty. There are many schools of kado, each with its own style.

**BUDO** (Kendo) Budo comes from the traditional Japanese martial arts. The purpose is to train the body and mind and build a character through practice. Kendo is a form in which students train their bodies and minds through swordsmanship.

**SADO** (tea ceremony) Green tea is made and served in accordance with traditional etiquette for receiving guests. It places great importance on the sentiments of the seasons. It is a composite art that brings together works of art and tea utensils displayed in tea houses.

There you can also find a speciality known as La Ganache – a bite-size ganache chocolate containing nicely-melting chocolate and cookie crunch, coated with aromatic chocolate and crispy puffs packed in beautiful boxes based on Thirty-Six Views of Mt. Fuji: A Mild Breeze on a Fine Day by Katsushika Hokusai, a painting housed by the Tokyo National Museum.

## 90<sup>th</sup> INTERNATIONAL F.I.C.C. RALLY 2020 IN OSTIA/ ROME (ITALY) from 24 July to 2 August 2020

### Sightseeing

**Rome and the surrounding area:** Guests have a wide range of routes available for discovering Rome's history, culture and cuisine, as well as the Vatican and smaller towns with their castles. Night owls can find the Roman "Dolce Vita" in the nightclubs of Trastevere, while the most varied

options for different sporting and recreational activities are offered at Rainbow MagicLand and Cinecitta World amusement parks. In addition, Rome, Ostia and all the other places have excellent restaurants where everyone can find their favourite Italian dishes.

**Colosseum and Roman Forum:** Although the most famous structure in the world is known by the name “Colosseum”, it was originally called the “Flavian Amphitheatre”. The Roman Forum in Rome is the oldest of its kind and was the centre of political, economic, cultural and religious life.

**Vatican Museums and St. Peters’ Basilica:** In Vatican City, the home of the Pope and the smallest independent state in the world, believers from all countries gather to receive the Holy Father’s blessing and admire St. Peter’s Square, created by Bernini, as well as the columns of the Vatican Palace and Michelangelo’s Sistine Chapel, which houses one of the largest art collections in the world.

**Castel Sant’Angelo:** Originally built as a mausoleum for the Roman Emperor Hadrian (76-138) and his successors, it was later transformed into a castle by various Popes.

Castel Sant’Angelo has been a museum since 1906.

**Fontana di Trevi:** The Trevi Fountain, the most popular and best known symbol of Rome, is one of the most beautiful fountains in the world. Tossing a coin into the water is an old, popular custom practised by tourists and is said to ensure one’s return to Rome.

**Baths of Caracalla:** The ancient Romans attached great importance to two things: personal hygiene and nurturing political and business contacts. In addition to a number of baths and gardens, the thermal spring centre also houses gymnastics and meeting rooms.

**Villa Borghese und Biopark:** As the green heart of Rome, Villa Borghese is the most frequented park in the city. The most impressive feature is the Borghese Gallery with sculptures by Bernini and other valuable art collections. Villa Borghese also houses the popular Biopark, a zoological garden with 200 different animal species.

**Ostia Antica:** The Tiber estuary flowing into the Tyrrhenian Sea made Ostia Antica a significant port stronghold for Rome. It was this function that gave it the name “Ostia”, which comes from Latin and means a gate or entrance. Ostia Antica takes you back to the world of the Ancient Romans, where you can retrace their steps through the ancient streets, visit the theatre and thermal springs, as well as admire the wonderful mosaics and frescoes.

## Camping/Caravanning/Motorcaravanning

### The awning – cleaning and adjusting the awning piping

Setting up the awning after hours behind the wheel is one of the greatest challenges for every camper. And then nothing is worse than awning piping that you can't retract into the piping rail. For this reason, it makes a lot of sense to check the rail thoroughly beforehand. Small bumps may have caused it to narrow in places, with the result that the piping on the awning no longer runs smoothly. These areas can be made wider again using an awning rail channel spreader. This is available with two different sized heads (7 and 9 mm) for around 10 euro. Simply thread in the head and move it along using a rubber mallet. The hammer is needed to do it the other way round. If the piping rail has been widened through some mishap, it can be got back into shape with some care. The channel spreader can be used as a template for this. Retraction problems can also be caused by fouling from resin or other sealants.

To overcome this, clean the piping rail with white spirit or thinner, then spray with silicone-based lubricant.
